Deer Resistant Woody Plants

Living in a woodland environment often means dealing with foraging deer. If you are having this problem in your landscape, try using some of these deer-resistant plants. Please note that no plant can be guaranteed deer-proof. When hungry enough, deer eat many plants they normally pass by.

Paperbark Maple - *Acer griseum*

Sugar Maple - *Acer saccharum*

Serviceberry - *Amelanchier spp.*

Bottlebrush Buckeye - *Aesculus parviflora*

Barberry - *Berberis spp.*

River Birch - *Betula nigra*

Butterfly Bush - *Buddleiah spp.*

Boxwood - *Buxus spp.*

Beautyberry - *Callicarpa spp.*

Bluebeard - *Caryopteris hybrids*

Threadleaf Falsecypress - *Chamaecyparis pisifera*

Flowering Quince - *Chaenomeles spp.*

Summersweet - *Clethra alnifolia*

Dogwood - *Cornus spp.*

Hazel - *Corylus spp.*

Cotoneaster - *Cotoneaster spp.*

Deutzia - *Deutzia gracilis*

Enkianthus - *Enkianthus campanulatus*

Beech - *Fagus spp.*

Forsythia - *Forsythia x intermedia*

Carolina Silverbell - *Halesia tetraptera*

Witchhazel - *Hamamelis spp.*

Rose of Sharon - *Hibiscus syriacus*

Juniper - *Juniperus spp.*

Kerria - *Kerria japonica*

Leucothoe - *Leucothoe fontanesia*

Spicebush - *Lindera benzoin*

Honeysuckle - *Lonicera spp.*

Saucer Magnolia - *Magnolia x soulangiana*

Bayberry - *Myrica pennsylvanica*

Spruce - *Picea spp.*

Andromeda - *Pieris japonica*

Mugo Pine - *Pinus mugo*

Cinquefoil - *Potentilla fruticosa*

Threadleaf Buckthorn - *Rhamnus asplenifolia*

Currant - *Ribes spp.*

Elderberry - *Sambucus canadensis*

Spiraea - *Spiraea spp.*

Lilac - *Syringa spp.*

Coralberry - *Symphoricarpos hybrids*

Arrowwood - *Viburnum dentatum*

Doublefile Viburnum - *Viburnum p. tomentosum*

American Cranberrybush - *Viburnum trilobum*

Judd Viburnum - *Viburnum x juddii*

Leatherleaf Viburnum - *V. x rhytidophylloides*

Weigela - *Weigela florida*
