## Street Trees

Trees that are suitable for street plantings must have several qualities. First, good street trees are relatively "clean" - this means they don't drop large amounts of fruit, pollen, frass (aphid excretion) or twigs. Some prefer street trees to have a columnar, pyramidal or vase-shaped habit to make them easier space. They typically are no more than 40 feet tall, have good fall color or ornamental value, and do not have surface-lying roots. Finally, a street tree must have tolerance to heat, drought, wind and pollution.

### Small - 10-25'

**Amur Maple** – *Acer ginnala*

**Paperbark Maple** - *Acer griseum*

**Tatarian Maple** – *Acer tataricum*

**Bloodgood Jap Maple** – *A. palmatum*

**Serviceberry** - *Amelanchier arborea*

**Redbud** – *Cercis canadensis*

**Hawthorn** – *Crataegus spp.*

**Carolina Silverbell** – *Halesia tetraptera*

**Seven-Sons Flower** – *H. miconoides*

**Prairiefire Crabapple** - *Malus x*

**Harvest Gold Crabapple** - *Malus x*

**Japanese Snowbell** – *Styrax japonicus*

**Japanese Tree Lilac** - *Syringa reticulata*

**Galaxy Magnolia** - *Magnolia 'Galaxy'*

**Elizabeth Magnolia** – *M. 'Elizabeth'*

### Large - 40-60'

**Autumn Blaze Maple** – *Acer x freemanii*

**Red Maple** - *Acer rubrum*

**Katsuratree** - *Cercidiphyllum japonicum*

**Saratoga Gingko** - *Gingko biloba 'Saratoga'*

**Thornless Honeylocust** - *Gleditsia triacanthos*

**American Planetree** – *Platanus x occidentalis*

**Bur Oak** – *Quercus macrocarpon*

**Pin Oak** - *Quercus palustris*

**Red Oak** - *Quercus rubra*

**Japanese Pagoda Tree** – *Sophora japonica*

**Chinese Elm** - *Ulmus parviflora*

**Japanese Zelkova** - *Zelkova serrata*

### Medium – 25-40'

**Hedge Maple** - *Acer campestre*

**Red-Flowering Horsechestnut** - *Aesculus x carnea*

**Goldenrain Tree** - *Koelreuteria paniculata*

**Flowering Pear** - *Pyrus calleryana*
